

*Together we
make it matter*

TOGETHER WE CREATE
INTERIOR SOLUTIONS THAT
ARE BOTH SPACE EFFICIENT
AND ATTRACTIVE

EFG Surround creates immense opportunities for room-in-room solutions that reduce noise levels in modern, open office environments. At EFG, we work from the conviction that an interior solution only makes a real difference when it is built according to each company's unique ways of working. With EFG Surround it is easy to create functional solutions that optimize your particular workplace, increase productivity and improve accessibility. As with all EFG products, EFG Surround is designed and produced according to the criteria set up by the Nordic eco-label Svanen.

"EFG Surround provides architects and planners with a dynamic multifunctional furniture system designed for the activity based office."

Olle Lundberg
DESIGNER
EFG SURROUND

CREATE AN OASIS IN THE MIDDLE OF THE ROOM

As with all of our products, EFG Surround is developed to make the best out of the active office environment – offering solutions for separate workstations as well as private or informal meeting rooms.

MAKE ROOM FOR A QUIET PLACE TO WORK TOGETHER

When a lot of people share the same space, making the most out of each square meter is crucial. EFG Surround is one of our most diversified module systems. It lets you choose between numerous combinations allowing you to create your very own work spaces with sofas, tables and just the right type of lighting that adds a homely feeling to the room. EFG Surround can easily be arranged in a number of new combinations, should you wish to go beyond our chosen configurations. And, in order to let you strengthen the overall image and add a personal touch there is a number of standard fabrics to dress the screens with. From strict and stylish to brightly colored and playful.

BUILD A PRIVATE WORK SPACE IN A COMMON AREA

The activity-based workplace is here to stay and together we create solutions that offer the ultimate in ABW, now and into the future. EFG Surround is so much more than a practical addition to a modern office. It is characterized by its acoustics and accessibility, allowing different activities to work side by side. It's a designer piece of furniture that plays a natural part in the room.

THE WHOLE PICTURE IS IN THE DETAILS

When you want to optimize your workplace even the smallest details play a crucial role.

FEET made from exclusive ash.

THE TABLE TOP can be fixed at two separate heights - 720 mm or 1050 mm – depending on whether you prefer to sit down or stand up when you work. A small, integrated table with a tray to write on is included with the sofa.

THE SOFT SHAPES makes it easy to arrange the piece creating a number of different combinations.

THE LAMP is a replica of the Swedish 1960's classic "Bumling" and leans itself to a designer talking point.

THE SOFA comes as a built-in booth, as a 1-seater and 2-seater with a table on each side or as a 3-seater without a table. Power outlets are available on both versions.

ASSORTMENT MODULES

All of the modules in the EFG Surround system are easily adjusted to fit any specific need for function and design. Below you will find an overview of each unit – from single stations to group rooms.
