Savo Maxikon

Savo Maxikon is inspired by functionalism and simple design. Savo Maxikon has both an exciting form and functional content – because we think differently. To give you the possibility for variation and movement Savo Maxikon has the unique ergonomical sitting concept Savo Floating Tilt®. Savo Maxikon is minimalism in practice. We have no excess parts. You can mount or remove options quickly and easily without having to use any tools. Few parts mean a simpler and more environmentally friendly production of the chairs. Savo Maxikon can be delivered with the soft and comfortable Vikon®-seat being 50% thicker than the standard seat. The seat foam molds and adjusts to the shape of your body and feels soft and at the same time supporting.

Functions

- Adjustable seat height 390-510 mm as standard. Additional 460-600 mm.
- Adjustable sitting depth
- Adjustable backrest
