

Savo 360

OFFICE CHAIR, HIGH, WITH FOOT RING

Savo 360, designed by Olle Lundberg, is a game-changer in office chair design. The goal was to create a sustainable and intuitive office chair with a large amount of wood. The chair has a minimalist, Scandinavian design and has been developed with both the office and the home office in mind. The ergonomics are built-in through the flexibility of the wood, which provides immediate comfort.
