

EFG KITE

50% RECYCLED MATERIAL. 100% RECYCLABLE

EFG Kite is a sound absorbing wall panel combining functionality with playfulness.

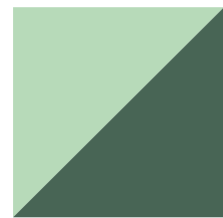

The screen has a core of Soundfelt, a sound absorbing material made of 50% recycled material. 25% recycled PET bottles and 25% recycled textile fibers. The remaining is recyclable polyester fiber and fabric making the screen 100% recyclable.

EASY MOUNTING

EFG Kite is mounted on the wall using velcro, allowing the panels to be mounted in any direction or combination. The four geometric shapes can be combined in a multitude of different possible patterns, expressions and sizes.

ASSORTMENT

The assortment consists of four geometric shapes. Each shape has a sharp diagonal seam dividing it in two halves, that can be upholstered in different colours of fabric.
