

EFG007815

Aura 1000 series

Aura 1000 series is a range of stand up/sit down workstations with motor-driven height adjustment 620-1270 mm, where the control is integrated in the table top. Light grey metal frame with a concealed frame in the middle, which at the same time stabilizes and offers plenty of space for legs and knees. The workstation has a complete assortment for cable management.

Product info

- Table tops with straight edges: 22 mm core of chip board with 0.6 mm veneer in beech (R5), ash white 2% (A2) and birch (B5). Table tops in MFC (MB, MR, ME, ML, M6 and MA), HPL (HV) or linoleum (D4) have a 22 mm core of chip board and straight edges.
- Motor-driven height adjustment 620-1270 mm.
- Metal frame in light grey (Z0) with 750 mm long T-foot, round legs Ø 70 mm and adjustable plastic glides.
- Maximum loading: 120 kg spread over the whole table top.
- Additional: cable trough, modesty panel in metal and frosted acrylic, desk screen, CPU-holder, pen tray, arm for flat screens etc.
- Guarantee: 5 years liability for defects resulting from faulty design, materials or workmanship.
- Complies with established criteria for furniture eco-labelling. Minor deviations may occur.
- Test: EN 527-2, 527-3. Aura 1000 series fulfils the technical demands in a protocol from Dansk Møbelkontrol.
- The tables are CE-marked. A user's manual will follow with each table and is attached under the table top.
